ABOUT THE PROJECT

You may have heard about it: a centre for independent artistic and cultural production, exchange, education and social work is being created in the administrative building of the former Semmelweis Women's Clinic. On a total area of 3,850 m² there is space for studios, workshops, rehearsal, movement, seminar and event rooms.

ABOUT US

We are a non-profit art and culture association consisting of artists of various disciplines, cultural actors and social and educational initiatives. We have set ourselves the goal of making this previously closed space accessible to a broad public, beyond profit-oriented spatial concepts for production, presentation and experimental as well as collaborative use.
